While recognising and fully supporting parents' rights to have a school of their choice for their children, the school's ability to accept students with particular needs is dependent on the supply of resources, suitable to the needs of the individual student, being supplied by the Department of Education and Skills.

The Board of Management needs to be aware of any special needs as early as possible, so that these needs can be assessed and addressed if possible.

In making provision for special need students the following information is required.

Has the student had access to any of the following resources? :

1. Special needs assistant or classroom assistant.
2. Special class.
3. Help, for specific needs, from any resource teacher.

If an expert report is provided, it should include a workable strategy for addressing the needs, allowing for the resources available.

The Board of Management, having gathered all relevant information and professional documentation, assesses how the needs of the special needs students can be fulfilled.

Final confirmation of a place, may, in exceptional cases be given when the Department of Education and Skills confirm that the necessary resources are in place.

N.B.: It may take some time for the Department of Education and Skills to process such applications. Parents are strongly advised to inform the school as early as possible and discuss their particular situation well in advance of making an application.
