

To Help you next week .

1. Your teachers will give you guidelines about topics, timeframes and expectations.
2. Remember these exams could make a difference of a grade or two to your final Result %
3. If you encounter problems with accessing assignments or downloading same - please inform the teacher immediately
4. We appreciate that Broadband /Internet access can be unreliable so again if you need deadlines to be extended please let your Year Head know via email as soon as possible.
5. We are expecting that you complete your work as well as you can and we are relying on your sense of honour to do so without help. Honesty is a core value in our school, and we know that you will be honest in this.
6. If you need clarification about anything above please email your Year Head.
- 7 Typing of exams would be enormously helpful if possible to do so .
- 8 If you do take a photo of finished written work make sure it is of good quality. Ideally use Adobe Scan App and upload that pdf rather than a photo .

Go neirí go geal libh Best of luck . Again keep safe and well and we will see you all in the new term . *Josephine Cahill*
