GENERAL APPROACH

The aim of this Internet Acceptable Use Policy (AUP) is to ensure that students will benefit from the learning opportunities offered by the school's digital resources in a safe and effective manner.

The responsible use of internet and digital technologies, both online and offline and access is considered an integral part of teaching and learning. Therefore, if the school AUP is not adhered to agreed sanctions will be imposed.

It is envisaged that school and parent representatives will revise the AUP at least bi-annually. Before signing, the AUP should be read carefully to ensure that the conditions of use are accepted and understood.

When using the internet students, parents and staff are expected:

- To treat others with respect at all times.
- Not undertake any actions that may bring the school into disrepute.
- Respect the right to privacy of all other members of the school community.
- Respect copyright and acknowledge creators when using online content and resources.

This Acceptable Use Policy applies to students who have access to and are users of the internet in Coláiste Mhuire Co-Ed.

The school employs a number of strategies in order to maximise learning opportunities and reduce risks associated with the Internet. These strategies are as follows:

- Filtering software and/or equivalent systems will be used in order to minimise the risk of exposure to inappropriate material.
- Uploading and downloading of non-approved software will not be permitted.
- The use of personal external digital storage media in school requires school permission.
- Virus protection software will be used and updated on a regular basis.

This Acceptable Use Policy applies to students who have access to and are users of the internet in Coláiste Mhuire Co-Ed.

- It also applies to members of staff, volunteers, parents, carers and others who access the internet in Coláiste Mhuire Co-Ed.

Misuse of the internet may result in disciplinary action, including written warnings, withdrawal of access privileges, detention and, in extreme cases, suspension or expulsion. The school also reserves the right to report any illegal activities to the appropriate authorities.

Colaiste Mhuire Co-Ed will deal with incidents that take place outside the school that impact on the wellbeing of students or staff under this policy and associated codes of behaviour and anti-bullying policies. In such cases Colaiste Mhuire Co-Ed will, where known, inform parents/carers of incidents of inappropriate online behaviour that take place out of school and impose the appropriate sanctions.

Coláiste Mhuire Co-Ed implements the following strategies on promoting safer use of the internet:

- Students will be provided with education in the area of internet safety as part of our implementation of the SPHE programme, 1st year computers and other curriculum areas.
- Internet safety advice and support opportunities are provided to students in Coláiste Mhuire Co-Ed through our year head assemblies, ENERGY programme, wellbeing week, anti-bullying information, first year belonging plus programme, and induction.
- Teachers will be provided with continuing professional development opportunities in the area of internet safety.
- Coláiste Mhuire Co-Ed participates in Safer Internet Day activities to promote safer more effective use of the internet.

This policy and its implementation will be reviewed bi-annually by the following stakeholders:
- Board of Management, teaching staff, students, and parents.

The school will monitor the impact of the policy using:

- Logs of reported incidents.
- Surveys and/or questionnaires of students, parents, and teaching staff.
- Student focus groups.

Should serious online safety incidents take place the Principal and Deputy Principal should be informed.

The implementation of this Internet Acceptable Use Policy will be monitored by the Assistant Principals, ICT Coordinator, Deputy Principal and Principal.

The focus of the Acceptable Use Policy (AUP) for iPads/Chrome Books and Bring Your Own Device (BYOD) at Coláiste Mhuire Co-Ed is to provide tools and resources to the 21st Century Learner. Excellence in education requires that technology is seamlessly integrated throughout the educational program. Increasing access to technology is essential for that future. CYBERBULLYING

This type of bullying is increasingly common and is continuously evolving. It is bullying carried out through the use of information and communication technologies such as text, social media, e-mail, messaging, apps, gaming sites, chat-rooms and other online technologies. Being the target of inappropriate or hurtful messages is the most common form of online bullying. As cyberbullying uses technology to perpetrate bullying behaviour and does not require face to face contact, cyber-bullying can occur at any time (day or night). Many forms of bullying can be facilitated through cyber-bullying. For example, a target may be sent homophobic text messages or pictures may be posted with negative comments about a persons sexuality, appearance etc.

Access to technology means that cyberbullying can happen around the clock and the students' home may not even be a safe haven from such bullying. Students are increasingly communicating in ways that are often unknown to adults and free from supervision. The nature of these technologies means digital content can be shared and seen by a very wide audience almost instantly and is almost impossible to delete permanently. While cyberbullying often takes place at home and at night, the impact can also be felt in school.

In accordance with the Anti-Bullying Procedures for Schools, Coláiste Mhuire Co-Ed considers that a once-off offensive or hurtful public message, image or statement on a social network site or other public forum where that message, image or statement can be viewed and/or repeated by other people will be regarded as bullying behaviour.

When using the internet students, parents and staff are expected to treat others with respect at all times. Engaging in online activities with the intention to harm, harass, or embarrass another student or member of staff is an unacceptable and absolutely prohibited behaviour, with serious consequences and sanctions for those involved. Students are reminded that online bullying is, by its nature, considered to be repeated, and the consequences of same are very serious.

Measures are taken by Coláiste Mhuire Co-Ed to ensure that staff and students are aware that bullying is defined as unwanted negative behaviour, verbal, psychological or physical, conducted by an individual or group against another person (or persons) and which is repeated over time. This definition includes

cyberbullying even when it happens outside the school or at night. In addition the Department of Education Anti-Bullying Procedures, 2013 defines cyberbullying as "placing a once-off offensive or hurtful public message, image or statement on a social network site or another public forum where that message, image or statement can be viewed and/or repeated by other people will be regarded as bullying behaviour.

The prevention of cyberbullying is an integral part of the anti-bullying policy of our school.

APPENDIX 1
I-PAD AND CHROMEBOOK ACCEPTABLE
USE POLICY (AUP)

INTRODUCTION

Coláiste Mhuire Co-Ed acknowledges the support of parents for the iPad/Chromebook initiative. We believe that the use of iPads in the classroom contributes greatly to the richness and variety of the student learning experience.

This policy must be read in conjunction with the Code of Behaviour and the ICT Acceptable Use Policy (AUP).

This policy remains in effect throughout the year including all holidays.

EDUCATIONAL USE ONLY

The iPad/Chromebook is for educational use only. We believe that there is considerable benefit to teaching and learning and to student welfare in confining the use of iPads to educational-use only. These include:

- For students: avoiding distractions while doing homework and classwork. Reduced peer pressure.
- For parents: peace of mind - many parents do not feel confident in terms of 'monitoring' their children's iPad.
- For teachers: avoiding wasting teaching time - we need to ensure that teachers' time and energy can be focused to the maximum extent on teaching and learning.
- Child protection: minimising inappropriate use of the iPad.

I-Pads for first years who entered in 2021, 2020, 2019, 2018 and 2017 were configured such that only preloaded educational applications are permitted on the iPad. On all other iPads the school is notified if apps that have been placed on an unsuitable list (which includes all VPNs) are downloaded.

EQUIPMENT

Parents are responsible for purchasing the iPad/Chromebook and apps for their son/daughter. Parents are also responsible for the safe-keeping, repair and insurance of their son/daughter's iPad/Chromebook. Parents retain ownership and possession of the iPad/Chromebook and agree to grant to teachers and school management the right to collect, inspect or confiscate (for a limited period) the iPad/Chromebook at any time and the right to alter, add or delete any installed software or hardware. Parents also agree that the school will manage and monitor the iPad/Chromebook for inappropriate use of school resources, in accordance with the ICT AUP. Usage within the school is a privilege and not a right. Students may lose the privilege to use the iPad/Chromebook and to have it in their possession if they abuse their responsibilities and breach this policy, or the ICT AUP. As these devices are purchased by parents, parents have an additional responsibility to ensure that any installed apps are appropriate for school.

DAMAGE OR LOSS OF EQUIPMENT

Students must report any damage or loss to either the class Tutor, Year Head or the ICT Coordinator who will determine necessary action. All iPads/Chromebooks purchased through the school scheme are covered by a manufacturer's warranty of one year. Families must work with Wriggle in this regard. The warranty covers manufacturer's defects. If an iPad/Chromebook is lost or damaged by neglect or misuse it is the family's financial responsibility to replace the iPad/Chromebook. It is recommended that parents insure the iPad/Chromebook.

STUDENT RESPONSIBILITIES:
- Arrive at school each day with a fully charged iPad/Chromebook (>80% charged).
- Ensure that only apps, websites etc... that relate to your work in class are open during class time.
- Keep the iPad flat on the desk at all times when in class.
- You MUST ask a teacher before using the camera function.
- To immediately stop using an iPad/Chromebook if a teacher requests. If requested students are not to close any apps and should go "hands-off" from the iPad/Chromebook.
- Keep the iPad/Chromebook in a protective case and kept safe when not in use. iPads/Chromebooks must not be in bags on the floor, on top of lockers etc. The school is not liable for any damage or loss of an iPad/Chromebook.
- Do not let anyone use the iPad/Chromebook other than your parents.

- Adhere to this policy and the AUP.
- Report any problems, damage or theft immediately to either your Tutor, Year Head or ICT Coordinator.
- Report any interference by any other student immediately to either the Tutor or the Year Head
- Leave iPad/Chromebook in a safe place when you are on tours and activities. Specific permission will be given by teachers if students are required to have iPads/Chromebooks outside class time.
- During break and lunch the iPad/Chromebook is not to be used. This is to give your eyes a break from the screen and to ensure that students get a chance to chat and socialise.
- Note: If a new iPad/Chromebook is purchased for the student (through the wriggle system and with school consent). The student must present the iPad/Chromebook to the ICT Coordinator so it can be set up to work on the school wireless network as well as to have the appropriate control systems applied.

If a person violates any of the User Terms and Conditions named in this policy, privileges will be terminated and the student's BYOD devices will be denied access to the school's network and Wi-Fi facilities and the appropriate disciplinary action shall be applied. The devices will only be returned the parents or legal guardians of the student owning the device.

TAKING CARE OF SCHOOL MOBILE DEVICES

In exceptional cases, Coláiste Mhuire Co-Ed may provide users (staff and students) with mobile devices to promote learning both inside and outside of the classroom. Users should abide by the same acceptable use policies when using school devices off the school network as on the school network.

Users are expected to treat these devices with extreme care and caution; these are expensive devices that the school is entrusting to your care. Users should report any loss, damage, or malfunction to staff/IT staff immediately. Users may be financially accountable for any damage resulting from negligence or misuse. School mobile devices that are broken or fail to work properly at the time they are in the custody of the students or staff must be taken promptly to the staff/IT technician for an evaluation of the equipment.

GENERAL PRECAUTIONS
- School mobile devices are school property and all users will follow this policy and the acceptable use policy for technology.

- Only use a clean, soft cloth to clean the screen, no cleansers of any type.
- Cords and cables must be inserted carefully into the mobile device to prevent damage.
- School mobile devices must remain free of any writing, drawing, stickers, or labels.
- School mobile devices left unsupervised are at the users' own risk.
- For personal devices, parents must ensure their child's mobile device comes to school fully charged and loaded with apps requested by the school.
- Do not leave the mobile device in an open carry bag so as to prevent it from falling out or from theft.

CARRYING MOBILE DEVICES

It is important that any BYOD devices have sufficient padding to protect the mobile device from normal treatment and provide a suitable means for carrying the device within the school. The guidelines below should be followed:

- Only one mobile device should be carried at any one time.

SCREEN CARE

The mobile device screens can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure on the screen.

- Do not lean on the top of the mobile device when it is closed.
- Do not place anything near the mobile device that could put pressure on the screen.
- Do not place anything in the carrying case that will press against the cover.
- Clean the screen with a soft, dry cloth or anti-static cloth.
- Do not "bump" the mobile device against lockers, walls, car doors, floors, etc… as it will eventually break the screen.
- Ensure your device does not get wet.

USING MOBILE AND BYOD DEVICES AT SCHOOL

Mobile devices and BYOD devices are intended for use at school each day. In addition to teacher expectations for Mobile device and BYOD use, school messages, announcements, calendars and schedules may be accessed using the mobile device and BYOD. The mobile device or BYOD cannot be used unless a

teacher has given permission for its use. Many teachers will operate a "face down" policy for BYOD devices (i.e., devices are face down on desk unless specified otherwise).

SCREENSAVERS/BACKGROUND PHOTOS/APPS

The screensaver or background photo must be appropriate. Inappropriate material or photos are not to be stored on school or BYOD. BYOD containing material considered inappropriate by the school will be confiscated and returned only to a responsible adult. In such a case the student's privilege of BYOD to school will be revoked.

SOUND AND APPS

- Sound must be muted at all times unless permission is obtained from the teacher for instructional purposes.
- All apps on BYOD are the financial responsibility of the student's family. School required apps must be installed and updated at home. It is imperative that any BYOD device fully supports the use of the Google Suite for Education. It is a parental responsibility to ensure this before purchase and to ensure that it is functioning. The school is not responsible for or in a position to support students with this.

PRINTING

Printing is not available for students with BYOD.

SAVING TO THE MOBILE DEVICE/HOME DIRECTORY

Students must only save to Google Drive. Students are responsible for ensuring adequate back up of their work.

NETWORK CONNECTIVITY

Coláiste Mhuire Co-Ed makes no guarantee that their network will be up and running 100% of the time. In the rare case that the network is down, Coláiste Mhuire Co-Ed will not be responsible for lost or missing data.

ADDITIONAL SOFTWARE

Parents (and students over 18) assume the responsibility for all software stored on BYOD devices.

BYOD users may have to install software at home at the family's discretion and expense.

INSPECTION

Students may be selected at random to provide their device for inspection including BYOD to ensure that there are not any violations to this policy.

SOFTWARE UPGRADES

All BYOD devices are expected to update software at home and not during the school day.

PARENT/GUARDIAN RESPONSIBILITIES

Parents have a responsibility to talk to their children about values and the standards that their children should follow regarding the use of the Internet as they would in relation to the use of all media information sources such as television, telephones, movies, radio and social media.

APPENDIX 3
AUP TO BE FOLLOWED IN EVENT OF
REMOTE LEARNING

Remote learning will only take place using the Google platform - Google Classroom, Google Meet and Google Drive.

Staff will only use their school assigned Google Emails via google classroom to communicate with student's school assigned Google Emails.

- Use of any personal accounts to communicate with learners and/or parents/guardians is not permitted.
- Students must use school emails only.

Any pre-existing relationships or situations which mean this cannot be complied with will be discussed with the principal, the DLP.

Staff will work with provided equipment where possible e.g., school provided Chromebook, iPad or other mobile devices. Staff will use strong passwords and log out of devices when not in use. If using devices other than a school provided machine teachers to inform the principal as he will need to communicate clear expectations regarding safeguarding and data security when using personal devices e.g., using strong passwords, suitable levels of encryption, logging off or locking devices when not in use etc.

Online contact with learners and/or parents/guardians will not take place outside of the operating times of the school day 9am - 4pm.

All remote lessons will follow the normal timetable.

DATA PROTECTION AND SECURITY
Coláiste Mhuire Co-Ed will continue to follow the guidance outlined in the ETBs Data Protection policy.

All participants will be made aware that the Google platform records activity.

Staff or students will not record lessons or meetings using personal equipment unless agreed and risk assessed by the principal.

Only members of the Coláiste Mhuire Co-Ed community will be given access to the school's Google platform. If outsiders who need access to enhance the educational experience of students are being given temporary access to the system this will be approved by the principal.

It is expected that all users will use strong passwords and logging off or locking devices when not in use.

SESSION MANAGEMENT

Staff will record the attendance at live sessions using compass.

Appropriate privacy and safety settings will be used to manage access and interactions. This includes:

- Students will only be permitted to share screens with explicit permission of teachers and teachers will turn off the Google meet for the classroom when not in use.

When live streaming with learners:

- Staff will mute/disable learners' videos and microphones.
- If only 1 student turns up and there is only 1 staff member the staff member will terminate the lesson and inform the DLP.

PREARRANGED LIVE 1:1 SESSIONS

Live 1 to 1 sessions will only take place with approval from the principal or the SEN Coordinator.

Live 1:1 sessions with learners are not recommended unless they are approved by the principal or the SEN Coordinator and a parent/carer is present in the room if possible (however, this may not be appropriate

if providing counselling or safeguarding support). Where possible an SNA will be scheduled to "sit in" in a remote 1:1 lesson.

The following is the agreed protocol for 1:1 counselling provided by the two trained Guidance Counsellors in our school.

- Support will be provided in line with https://www.education.ie/en/Schools-Colleges/Information/Post-Primary-School-Policies/Policies/continuity-of-guidance-counselling-guidelines-for-schools-providing-online-support-for-students.pdf
- The Guidance counsellors will agree with the principal/DLP the provisions to be in place and will follow best practice as laid down by the NCGE and the DES.

For further information on this please see the Whole School Guidance Plan.

Access links to live sessions should not be made public or shared by participants.
Learners and/or parents/guardians should not forward or share access links.
If learners/parents/guardians believe a link should be shared with others, they will discuss this with the member of staff running the session first.

Learners are encouraged to attend lessons in a shared/communal space or room with an open door and/or when appropriately supervised by a parent/carer or another appropriate adult.

Alternative approaches and/or access will be provided to those who do not have access.

BEHAVIOUR EXPECTATIONS

Staff will model safe practice and moderate behaviour online during remote sessions as they would in the classroom. Students should note that the full code of behaviour continues to apply in a remote learning environment.

All participants are expected to behave in line with existing school/setting policies and expectations. This includes:

- Appropriate language will be used by all attendees.
- Staff or students will not take or record images for their own personal use.

Staff will remind attendees of behaviour expectations and reporting mechanisms at the start of the session.

When sharing videos and/or live streaming, participants are required to:

- wear appropriate dress.
- ensure backgrounds of videos are neutral (blurred if possible).
- ensure that personal information and/or unsuitable personal items are not visible, either on screen or in video backgrounds.

Educational resources will be used or shared in line with our existing teaching and learning policies, taking licensing and copyright into account.

POLICY BREACHES AND REPORTING CONCERNS
Participants are encouraged to report concerns during remote and/or live streamed sessions:
- If students have any concerns they should report them to the member of staff running the session or tell their parent/guardian.

If inappropriate language or behaviour takes place, participants involved will be removed by staff, the session may be terminated, and concerns will be reported to the year head.

Inappropriate online behaviour will be responded to in line with existing policies such as acceptable use of technology, allegations against staff, anti-bullying and behaviour.

- Deliberate misuse of online platforms will be treated as a major or extreme breach of the code of behaviour.

Any safeguarding concerns will be reported to Denis Quinn, DLP in line with the safeguarding statement.
